DETAILED ACTION

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: Claim 1 is allowable over the art of record because the prior art does not teach a second connecting portion connecting the first radiating portion and the second radiating portion, the second radiating portion having a pair of arms; and a feeder including an inner core connecting to the second connecting portion and in combination with the remaining claimed limitations.

Claim 7 is allowable over the art of record because the prior art does not teach a second connecting portion spaced from the first connecting portion and mainly connected between the first radiating portion and the second radiating portion; a feed portion extending around an end of the second connecting portion close to the ground portion; and in combination with the remaining claimed limitations.

Claim 13 is allowable over the art of record because the prior art does not teach a Z-like connecting portion connected between the first radiating portion and the second radiating portion; a feed portion extending around an end of the connecting portion and close to the ground portion; a projection extending from a main body of the ground portion toward the second radiating portion; and in combination with the remaining claimed limitations.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Chang et al, Cheng et al, Ollikainen et al,
